Biography

Serge Mozhnevsky is a Russian-born, Ukrainian-raised sculptor and painter who immigrated to Canada in 2000. A graduate with honors in Wood Carving from Uzhhorod Professional College, Serge's work is rooted in clean lines and abstract form, inspired by nature and the human body. His sculptural language reflects a meditative sense of movement and balance, whether shaped in wood, metal, or stone.

His public sculptures have been featured across Canada and the United States, and now reside in permanent collections at prestigious institutions including the Mayo Clinic (Wisconsin), City of Nelson (BC), and universities in Slovakia, Romania, and Ukraine. In addition to sculpture, Serge's paintings explore similar emotive and thematic connections, blending media to offer a unified vision of expressive form.

Artist Statement
